“Always a quest for more, it is never too soon to establish a blueprint of the Currency Of Time.”

– Mica F. Tan, Chief Executive Officer

– Mica F. Tan, Chief Executive Officer

MFT Group is on a rapid global growth trajectory. Since its establishment, MFT Group has significantly grown and expanded its investment and operational teams to over 10 countries and 20 cities worldwide. We are poised to become the most recognized strategic business partner of local and global businesses, together with financial institutions and a roster of experts from diverse industries.

MFT Group is aggressively moving forward to fulfill its mission to establish 100 business areas worldwide.

Maria Francesca F. Tan Chief Executive Officer

Mica F. Tan is the Chief Executive Officer of MFT Group of Companies, a private equity firm that adheres to the principles of restructuring corporate blueprints of global family legacy businesses to establish sustainable financial footing. Mica has been involved in all phases of MFT Group's development since its founding in 2024.

Under her leadership, MFT Group mapped out a clear vision — to establish presence and profitable business models in 100 Business Areas worldwide. MFT Group's investments around the world span a wide range of industries across asset classes, in both established and growth-oriented businesses alike, including financial services and technology, credit, healthcare, and real estate. Being the highly entrepreneurial and born visionary that she is, Mica led MFT Group in forging its entry into global markets, fueling the expansion through food and beverage interests. MFT Group has established presence in Spain, the United States, Japan, Hong Kong, Singapore, Vietnam, Indonesia, and Malaysia. She manages operations in 10 countries and 20 cities, with offices in Hong Kong, India, Singapore, and New York.

Mica strives to create value by investing in great businesses where capital, strategic insight, global relationships and operational support can drive transformation that unlocks the company's potential. She actively targets companies in which significant value can be created through clear strategic and operational change. From its humble beginnings of 8 employees, Mica has since built a team of close to 300 across its offices worldwide, empowering them to provide hands-on support to help MFT Group's portfolio companies become more productive, efficient, and valuable. She leads a dedicated executive committee that helps her craft strategic business plans for these companies to reach their full potential over the long term, providing assistance as they put this plan into practice.

Mica just recently completed her Executive Program with focus on Mergers & Acquisitions at Columbia Business School in New York.

Our Team

At MFT Group, our people are our most valuable asset. To us, intellectual capital is key to creating positive impact both in business and in the economy.

We believe it is essential to tap into diverse industries for unique perspectives and a future-proof approach to growth. It is in this way that we have come across skilled problem solvers who see all challenges as opportunities.

We are now a firm of 280 employees in 10 countries worldwide.

This Is The Process

Web trading

Trade without compromise. Access TradingView charts with over 80 indicators, Reuters news feeds, behavioral science technology and much more with our web trading platform.

MT5 enhanced

The powerful MetaTrader platform comes packed with tools, features, and the type of execution that has made it popular among experienced traders – and unlike most MetaTrader 5 platforms, you'll have access to integrated Reuters news as standard.

5-3-1 trading strategy

The 5-3-1 trading strategy is a guide for new currency traders to help define the currency pairs, strategies, and trading session that is best for them.

AI Automate your trading strategies

We've partnered with Capitalise.ai to bring you seamless automation and a superior trading experience.

About Area Chart

An area chart is a type of chart, similar to a line chart, that highlights the magnitude of change or total value over time. It does this by filling the area between the plotted line and the x-axis with color or shading, unlike a line chart that only uses lines. This design helps emphasize the cumulative effect of data points and is particularly useful for visualizing trends and comparing volumes across different periods or categories

We have a number of successful Mirai fx trading projects.

First 4 hr

\$10K

Second 12 hr

\$20K

Third 8 hr

\$30K

The 80% rule is a trading concept related to the value area and is particularly associated with Market Profile analysis. It states that if the price enters the value area for a certain period (usually the first hour of trading) and stays there for approximately two consecutive brackets (30-minute periods), there is an 80% chance that the price will continue to move to fill out the entire value area.
